

Tactical Leadership for the Next Generation of Female Executives (Ages 25–40)

After 30+ years in the corporate world, I've seen firsthand how the "broken rung" can stall brilliant careers. I created **Beyond the Glass Ceiling** to provide the tactical roadmap I wish I'd had when navigating the jump from management to the boardroom.

Through my bespoke **The G.L.A.S.S. Gameplan™**, I move beyond theory to provide immediate, solution-based strategies:

- **G (Grow):** Build leadership confidence and master stakeholder relationships.
- **L (Listen):** Foster team psychological safety through "Safe Listening Environments".
- **A (Act):** Master the art of delegation and solution-based decision-making.
- **S (Speak):** Find your unique voice and navigate boardroom adversity with poise.
- **S (Soar):** Balance the "see-saw" of work-life sustainability for long-term success.

My mission is to provide you with practical skills that help you to become a leader that is both respected and impactful.

Whether through small cohorts of 1-on-1 intensives, I focus on the EQ and IQ required to play the "long game" of leadership.

Ready to take the next step in your executive journey?
